

1. Supply List for Pineapple Storm Class

Sewing machine threaded with normal piecing thread

Pins-I prefer pins without large heads for paper piecing.

Scissors

Paper scissors

mat/rotary cutter

It would be handy to have an extra rotary cutter with a used blade for cutting paper

long ruler (I prefer a smallish ruler for paper piecing, say- 3" by 18")

Metal ruler, or other thin straight edge. (maybe from an office supply store)

you may find it helpful to have some colored pencils

Pineapple Storm pattern (Costs \$7, but I will bring them)

Paper piecing is a time when you will really find it convenient to have a small cutting mat, and a small iron right next to your work station, if that's feasible. Many people like a small, side table next to their work station.

Fabric

We will only get to do a few blocks in class so an assortment of 1 ½" strips should be sufficient. However, I do recommend that you bring more of something you have designated to be a background color, and make sure that you have at least 3 other distinct color families to work with. You can always add in more fabric choices later. You will also want to have some 3 ½ " squares on hand for the corners.
