

9. Supply List for Binding class

We are learning to sew a binding with a flange that is completely done on the sewing machine.

General Class Supplies:

1. If possible, please bring something to bind, such as a quilt, wall hanging, table runner, or placemats. If you don't have anything you can observe.
2. Bring enough fabric to bind your item. You need TWO contrasting colors of fabric for this method of binding. One is for the flange and the other for the typical binding. Bring the same amount of fabric for both. We can also help you with selection in class.
3. Sewing machine: Bring a walking foot, a $\frac{1}{4}$ inch foot, and/or open toe foot.
4. General sewing equipment: scissors, pins, rotary cutter, rulers, and binding clips
5. We use the Shortcut Binding Tool to teach this method. We have some that you can use, and if you like it, we will sell you one.
6. Bring thread to match the flange.

Example: In the picture below, the flange is a bright green, so you would use a bright green thread.
